

Arkansas Traumatic Brain Injury (TBI) Registry

ATRP TBI Central Registry

Arkansas Statute §20-14-703 requires that all hospitals, attending physicians, public, private, or social agencies refer every Arkansas resident who has sustained a newly identified moderate-to-severe traumatic brain injury to the ATRP TBI Central Registry. Referrals are required within five (5) days of diagnosing/identifying the injury as a TBI.

TBI Registry Referral Process:

- The Arkansas Traumatic Brain Injury (TBI) Registry is now completely online
- Referrals must be entered by designated reporters at TBI.UAMS.EDU
- Initial Referral must be initiated within five (5) days of diagnosis/identification of TBI
- Discharge Referral must be initiated within five (5) days of discharge
- A brain injury must be reported to the TBI registry if the patient's Glasgow Coma Scale score is 12 or below for adults or 13 or below for pediatric patients.
- Do not report if the Glasgow Coma Scale score is not an eligible score, if the patient is not an Arkansas resident, or the injury is not a result of a traumatic injury.
